Since Mr. Wanamaker enlarged his great Oak Hall, and made it the largest Clothing House in America, popular favor has set in with undoubled force. People stop as they pass to look in upon the busy throng, and marvel at the great success. But the secret all lies in the two words-"Cheapest" and "Best."

Cutting Affair .- A cutting affair took place at Chesapeake City, on Monday night last between Larry Simmons and Jim Warham. Simmons inflicted dangerous wounds upon Warham with a knife on the back, extending up round the shoulder, and down the right arm, severing all the muscles of the arm. Simmons was arrested and lodged in jail.

Pulpit Eloquence.- A series of evening services has been held in the Presbyterian Church, of Elkton, this week, which have generally drawn large congregations. Rev. Chas. D. Shaw, of Wilmington, preached cal use in enforcing the truths of the Gos-

Fire.-On Monday last the alarm of fire was raised, and the old engine hurried through the streets toward the corner of Bridge and Main streets. The chimney of Dr. Mitchell's house took fire and communicated the flames to the shingle roof. Fortunately there, was prompt assistance at hand, and a few buckets of water applied to the roof extinguished the fire before it had time to spread, and prevented another trial of the old fire apparatus displaying its inefficiency, and utter worth-

Noble Example.-Some months since member of one of the Bible classes of the Elkton M. E. Sunday school, left Elkton for California: It seems that he has not forgotten the instructions received there, from the fact that he remitted to his teacher, recently, from his far-western home the sum of \$3.00 as his missionary contribution. This is evidently a praiseworthy act, and worthy of emulation by hundreds of others nearer home. This young man was Will Hill, son of Col. J. C. Hill, of Elkton.

United States Commissioners .- Jas. T. McCullough, Esq., has been appointed one of the United States Commissioners, by the United States Circuit Court, to hear cases of alleged violation of the United States laws. The duties of the Commissioners are similar to those of a Justice of the Peace, except that they only take cognizance of offences against the laws of the

Peace, except that they only take Cognitive actions of the Turned of femices against the laws of the United States. These officers have been appointed with special reference to the emptorement of the provisions of the Fiftcenth Amendment and the laws passed in pursuance thereof in the matter of registration and voting.

The Aurora.—The frequent appearance of the Auror Borealist the past Summer and present Fall is somewhat remarkable. Formerly the phenomenon used to appear only in cold weather, and present a changing may hued light in the northern sky of peculiar brilliance and beauty and beauty. The appearance of the auroral phenomenon, recently, from this vicinity has been of a dusky fivery red color. The lights which shown in the sky on Monday and Tuesday inglists last, stretched across the heavens from southeast to northwest, and were singularly red and lurid in appearanced. Late in the evening a white light extended round the herizon from east to north.

MR. JAMES MCINTINE:—Dear Sir:—I am quite surprised to receive a demand from you or Internal Revenue taxes. This is something which I was not honored with in days of prosperity. Last Winter the Sheriff, for the benefit of several security claimants administered upon my estate, and when I examined his distribution list I found he had even entirely disinherited my own creditors. So I think Uncle Sam's legacy will be rather slim. I have nothing now subject to taxation for County, State or Internal Revenue, except a black dog. Should you offer him for sale you will have to be purchaser, for the whole neighboring whither he pleased, and used to hang hood have a dislike to him. Yours, truly,

Singular Chapter of Accidents .- Mr. John Rutter, a young man, late resident of Elk Neck, was buried in the Presbyterian burying ground, of this town, on Wednesday last. His remains were attended to their last resting place by a large gathering of friends and neighbors. The deceased had been singularly unfortunate in becoming the victim of several painful accidents within a few months of his death, which, probably assisted to hasten his end. Some years ago he shot himself, we are informed, by the accidental discharge of a

A few weeks since, he took the typhoid fever, which carried the unfortunate young man to his grave.

This work is attributed to the boys. But why should Elkton boys select the two first named class of bills as objects of special and reverential regard, while the last named are considered fair game to exercise their propensities for malicious mischief on? The act points to a hom-

and party training that is disgraceful, both individually and publicly. There is a lax morality about it which parents and officials should exert themselves to correct. The incipient elements of the vagabond and ruflian plainly crop out of such sports.

There is a fine of \$10 for defacing or destroying hand-bills of the classes above indicated, and it is the duty of the officers Fall goods, because they do not advertise of the law to investigate and punish such acts of youthful vandalism.

Meeting of Duckers.—A large and respectable meeting of gunners, and others interested in the shooting of wild fowl, was held in the Town Hall last Friday evening, to consult and exchange views in regard as to what action to take in regard to the oppressive prohibitory law that will ruin their business if rigorously enforced. A committee was appointed to wait on the Governor and State authorities, and present their grievances.

to Go to Florida in Winter.

Having for the last thirty-five years devoted my whole time and attention to the study of lung disease and consumption. I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy soundness. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is Florida, well down in the State, where the temperature is regular, and not subject to such variations as in more Northern Istitudes. Platka is a point I can resonmend. A good hotel is kept there by Beterman. Last winter I saw several persons there whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicine, were getting well.

So fer as the Mandrake Fills are concerned, everylody should keep a supply of them on hand. They act on the liver better than calomel, and leave none of its hurtful effects behind. In fact they are excellent in all cases where a purgative medicine is required. If you have pattaken too freely of fruit and discribes remess, a dose of the Mandrake will cure you. If you are subject to sick headache, take a dose of the Mandrakes and they sill cure you in two hours. If you would obviate the effect of a change of water, or the too free inhulenne in fruit, take one of the Mandrakes every night or every other night, and you may then drink water or cut water-melons, pears, apples, plums, peaches or corn, without the risk of being made sick by them. They will protect those who live in damp situation against childs and fewer. Try them. They are perfectly harmless. They can do you goest only.

But I desire it distinctly understood that the value of my medicine depends entirely upon their being taken strictly according to directions.

In conclusion, I will say that when persons take my medicines and their systems are brought into a healthy condition thereby, they are not so liable to take cold, yet no one with diseased lungs can bear a sudden change of atmosphere without the liability of greater or less first attorn, of the bronchial tubes.

Ten years of hard work and hard knocks, have organized in Philadelphia the largest and most complete Clothing House in America, if not in the

WHOLE WORLD.

Ry constant endeavors, we have avoided all the old ruts and antiquated methods of the trade, until now Oak Hall is TEN universally acknowledged to be TOU

No. The Reasons are:-no-

NOT .

NOT

nor T

1 We have built a house for our business, covering nearly half an acre.

2 Instead of wedging it in between other buildings, making the goods, it is built on a corner of three streets, and any one may count in it 251 windows.

We employ skilled workmen, One Hundred and Fifty of whom may be seen under our roof by any one having time and curiosity to visit our Establishment, and besides these, 1400 to 1800 sewers are employed at their own homes.

We make up no imperfect goods.

5. We thoroughly sponge and shrink ALL our goods.

6 We purchase our goods at first hands, in large lots,--some-

7 We set our faces against every species of unfair dealing, and will dismiss any employee in any way guilty of it. 8. We have such enormous sales that we are content with the profit far below the trade margin.

We warrant all our goods, and will give every possible an J. guarantee to purchasers at Oak Hall. DO T

The above are facts that no one can truthfully dispute, as the can examination we so cordially invite, will fully prove. We ask the encouragement and support of all classes of people, feeling sure that in establishing in Philadelphia the

Largest Clothing House in America, 📆 We enlist the patronage of all who are interested in the pros-
